

## Company Description

TaiHao Medical Inc. is an artificial intelligence (AI) company founded in 2013, Taipei, Taiwan. The image processing methodology with AI is evaluated to be helpful in assisting physicians in breast cancer detection and diagnosis. The available products include "BR-Viewer" and "BR-FHUS Smart System" focusing on breast screening to meet the upcoming requirements. Either for automated breast ultrasound or hand-held ultrasound images, the corresponding computer-aided system is ready. We aim at being the leader of medical software with whole body health care in the world.
